

Tea Time App Blackline Drawings

Tea Time is the first of four Apps in Dr. Suzy Lederer's *I Can Play That* book of pretend play. Tea Time provides opportunities for the child to practice pretending and communicating using special time words (first, next, and then, last) that pretend play sequences require. Feeding a teddy bear a cup of tea soon becomes a sequenced tea party in both English and Spanish. In addition to enjoying the story sung in English and/or Spanish the child can practice retelling the story by touching the blinking pictures in the game at the end of the story. The teachers and/or parents can then practice the language skills with the blackline drawings. Have the child color the pictures, staple the pages in a book and then read and sing the story. Thanks to Dr. Susan Lederer, professor of speech-language pathology, and Jenny Loehr, illustrator and speech-language pathologist, for allowing us to use these words and pictures in this App. Dr. Lederer has written several books for speech-language pathologists, children and parents that address early language development, pretend play and yoga for children. If you would like to purchase any of Dr. Lederer's storybooks in the *I Can* series, you can use the coupon code "ICSTapp" for a 10% discount upon checkout at www.childrenspublishing.com.

THE TEA PARTY

Let's make a tea party.

A tea party?

A tea party!

Pretend to make a tea party.

Teddy, you, and me.
